Priorities for The White House Office of Science and Technology Policy (OSTP)

The mission of OSTP is to ensure America is the world leader in science and technology. To that end, our work focuses on:

- **Unleashing Discovery and Innovation**
- **Building the Workforce of the Future**
- **Advancing America's Values in Global S&T Leadership**

OSTP coordinates S&T policy

Joint Committee Effort

- Rigor and integrity in research
- Safe, inclusive, and accommodating research settings
- Protecting American research assets
- **Administrative burdens**

Most Americans may not think about the Federal Government every day—but when they need Government services, they expect them to work. The President's Management Agenda lays out a long-term vision for modernizing the Federal Government in key areas that will improve the ability of agencies to deliver mission outcomes, provide excellent service, and effectively steward taxpayer dollars on behalf of the American people.

Intro to the President's Management Agenda

Cross-Agency Priority (CAP) Goals have been established to drive implementation of the **President's Management Agenda (PMA)**. These Goals tackle critical government-wide challenges through the three Key Drivers of Transformation under the PMA.

KEY DRIVERS OF TRANSFORMATION

*Across all CAP Goals, Government modernization will be rooted in the intersection of transforming **technology**, **data**, process, and **people** rather than working in silos.*

Results-Oriented Accountability for Grants Cross Agency Priority Goal

Maximize the value of grant funding by applying a risk-based, data driven framework that balances compliance requirements with demonstrating successful results for the American taxpayer.

GOAL STATEMENT

For more detailed information on the Grants CAP Goal visit

Results-Oriented Accountability for Grants Cross Agency Priority Goal Strategies

Standardize Business Processes & Data: Standardize grants management business processes & identify, operationalize, standardize, & link data.

Build Shared IT Infrastructure: Use standard business processes & data to identify opportunities to build shared solutions that reduce burden & improve the user experience.

Manage Risk: Leverage data, including data from annual audits, to assess & manage recipient risk.

Achieve Program Goals & Objectives: Hold recipients accountable for good performance practices that support achievement of program goals & objectives; & streamline burdensome compliance requirements for those that demonstrate results.

Stay Informed!

There are more opportunities to come to get involved and contribute towards improving our grants community
