

Sponsored by the Tri-institutional Collaboration Network (TCN)

September 16, 2008

Grant Writing Workshops

K-Awards

9:30am-12:00pm

The National Institutes of Health's primary grant mechanism for supporting new and mid-career investigators is the Mentored Career Development Award (K Award). This workshop will explore the range of K Award options available, provide an overview of the K Award application process/review criteria, and feature a mock study review section of a K Award application led by experienced Tri-institutional faculty.

F32 Grants

1:30pm-4:00pm

This workshop will provide an overview of the NIH Postdoctoral Fellowship Award, the National Research Service Award (NRSA), as well as a step-by-step guide to preparing a successful fellowship application. This session will also provide the opportunity to speak with experienced Tri-institutional faculty.

Speakers

Robert J. Milner, PhD

Director of the Junior Faculty
Development Program

Professor of Neural and Behavioral Sciences
