December 12, 2013
Updates

Marta I. Torruella, CRA
Associate Director, SR-PD
UPDATES

• SR-PD Updates
  – New Member - Joyce Ng
  – InfoEd Upgrade-version 13.804.04
  – Trying year - Special Thanks

• After the Shutdown
  – deadlines, peer reviews- back to normal
  – JIT requests arriving
UPDATES

• NIH Updates
  – Use of Form C
  – ASSIST for Multi Projects
  – Grant Reform guidance – burden reduction

• Grants due 12/25/13 – 01/03/14

• TCN Events
Budget Justification

Kate Ross, CRA
Manager, Outreach and Training
Budget Justification

• Review SR-PD Budget Justification Boilerplate

• All budget items must be
  – Allowable
  – Allocable
  – Reasonable
  – Necessary
  – Consistent
If the PD/PI has $1 million or more in annual direct costs from the NIH:

The Rockefeller University enables its investigators to dedicate their time and efforts to research and on-site research training. While members are free to participate in teaching the graduate courses offered at the University, there is no teaching requirement and the time and effort commitment for teaching is minimal compared to other universities. A researcher at The Rockefeller University, therefore, is expected to and can direct and perform more research projects than the typical researcher elsewhere.
Personnel

Personnel Justification should include the following statement:
All full-time University appointments – faculty and staff – are for 12 months. Therefore, University efforts and salaries are calculated on a 12-month calendar year.

SPONSORED RESEARCH AND PROGRAM DEVELOPMENT
www.rockefeller.edu/sr-pd/
Equipment

• Definition: an article of non-expendable, tangible personal property having a useful life of more than two years and acquisition costs of more than $5,000/unit.

• Itemize in justification, showing critical benefits to project

• Provide vendor’s quotes to substantiate request

• Refer to institutional procurement policies

SPONSORED RESEARCH AND PROGRAM DEVELOPMENT
www.rockefeller.edu/sr-pd/
Consultants

- Consultants work for a fee and cannot be an RU employee
- Justification should detail the individual consultant, his/her affiliations, the services to be performed, benefits to the project, and cost
- Must have letter from authorized rep of the consultant’s organization substantiating and justifying the hourly rate and the # of hours of proposed consulting services

Sponsored Research and Program Development
www.rockefeller.edu/sr-pd/
Resource Centers

• Each Resource Center should be clearly identified

• Requested costs must be based on the center’s posted rates or a written quote on letterhead

• Justification should clearly illustrate how costs were determined (ie, 20 screens @ $100/screen = $2,000)
Significant Changes and Clarifications to the Grant Proposal Guide (GPG) effective February 24th 2014

Mukul Mathur
Sr. Grants Management Specialist
Format of the Proposal

Has been revised: Upon entering the proposal preparation module in FastLane, the PI will be prompted to select whether or not the proposal is a collaborative proposal and the type of proposal being developed.
Sections of the Proposal

• Includes a list of required sections for a full proposal submitted via FastLane.

• If the submission instructions do not require a section to be provided, then insert text or upload a document in that section of the proposal that states, “Not Applicable.”
Project Summary

Project Summary containing special characters be submitted as a PDF file in the Supplementary Documentation section. Must be formatted with separate headings for the overview, statement on intellectual merit, and statement on broader impacts.
Results from Prior NSF Support

In cases where the PI or co-PI has received more than one award they need to only report on the one award most closely related to the proposal.
Unfunded Collaborations

• Any substantial collaboration with individuals not included in the budget should be described in the “Facilities, Equipment and Other Resources” section of the proposal and a letter of commitment from each collaborator should be provided in the supplementary documentation section.
Biographical Sketches

Guidelines have been updated to state that inclusion of information beyond that is specified may result in the proposal being returned without review.

Products: If only publications are included in this section of Biosketch, the heading “Publications” may be used.
**Budget**

**Participant Support:** has been revised to emphasize that indirect costs are not allowed on participant support costs.

**Allowability of visa costs:** Short-term, travel visa costs are generally allowable expenses; should be clearly identified as directly connected to work performed on an NSF-related project.
Submission of a collaborative proposal from multiple organizations

Has been supplemented to clarify required sections of the proposal for lead organizations versus non-lead organizations.
Research Performance Progress Report (RPPR)

Maura Gilmartin, CRA
Sr. Grants Management Specialist
RPPR is now mandatory for all SNAP (e.g. R01) and Fellowship progress reports.
Most common concerns:

- Participant data
- Other Support
- Project Performance Site Page
- Publications
Research Performance Progress Report (RPPR)

Participant data reporting:

• Maintains reporting requirement for only those who have devoted 1 Cal. Month or more

• Must round to nearest whole number

• Due to rounding, the PI (PI ONLY) may be reported as 0
D. Participants

D.1 What individuals have worked on the project?

Provide or update the following information for: (1) program director(s)/principal investigator(s) (PIs); and (2) each person who has worked at least one person month per year on the project during the reporting period, regardless of the source of compensation (a person month equals approximately 160 hours or 8.3% of annualized effort).

Provide the name and the title of the role the person played in the project. Indicate the nature of the person’s role (Calendar, Academic, Summer) that the individual worked on the project. Show the most recent role in which the person has worked on the project for any significant length of time. For example, if an individual is a graduate student, enter their graduate school, and continue with their degree.

Instructions
- An individual's Commons user ID may be used to partially populate his or her information.
- A Commons ID is required for all individuals with a postdoctoral role.
- Individuals with a postdoctoral role should be identified as "Postdoctoral (scholar, fellow, or other postdoctoral position)."
- Do not include other Significant Contributors who are not committed to any specified measurable effort to this project.
- Do not report personnel for whom a PI's 2271 Appointment form has been submitted through iTRAIN.
- Required fields are marked with an *

D.2 Personnel Updates

D.2.a Level of Effort

Will there be, in the next budget period, either (1) a reduction of 25% or more in the level of effort from what was approved by the agency for the PDI(s) or other personnel designated in the Notice of Award, or (2) a reduction in the level of effort below the minimum amount of effort required by the Notice of Award?

[ ] Yes [ ] No

For reductions and cumulative, i.e., the 25% threshold may be reached by two or more successive reductions that total 25% or more. Once agency approval has been given for a significant change in the
Research Performance Progress Report (RPPR)

Due to changes in Participant data reporting:

• Email SR-PD GMSs personnel efforts

• Other Support – include ALL support & new format
### Changes in Other Support (D.2.c)

**ANDERSON, R.R.**

**ACTIVE**

- **(This Award)**
  - 2 R01 HL 000000-14 (Anderson) 3/1/2000 – 2/28/2015  3.6 calendar
  - NIH/NHLBI  $186,529
  - Chloride and Sodium Transport in Airway Epithelial Cells

The major goals of this project are to define the biochemistry of chloride and sodium transport in airway epithelial cells and clone the gene(s) involved in transport.

- 5 R01 HL 000000-04 (Baker) 4/1/2010 – 3/31/2014  1.2 calendar
  - NIH/NHLBI  $122,717
  - Ion Transport in Lungs

The major goal of this project is to study chloride and sodium transport in normal and diseased lungs.

- R000 (Anderson) 9/1/1998 – 8/31/2013  1.2 calendar
  - Cystic Fibrosis Foundation  $43,123
  - Gene Transfer of CFTR to the Airway Epithelium

The major goals of this project are to identify and isolate airway epithelium progenitor cells and express human CFTR in airway epithelial cells.

- **(New)**
  - 1 R01 DK000000-01 (Zimmerman) 9/1/2012 – 8/31/2016  1.2 calendar
  - NIH/NIDDK  $187,265
  - Cystic Fibrosis Related Diabetes and Lung Function

The major goals of this project are to determine how CFRD contributes to lung function decline.

**Overlap** No Overlap

**INACTIVE**

- DCB 950000 (Anderson) 12/01/2008 – 11/30/2011  2.4 calendar
  - National Science Foundation  $82,163
  - Liposome Membrane Composition and Function

The major goals of this project are to define biochemical properties of liposome membrane components and maximize liposome uptake into cells.
Performance Site screen:

- **6.8 Project Performance Sites**
  - Required fields:
    - Organization Name
    - DUNS or DUNS+4
    - Address
    - City
    - State
    - County
    - Country
    - Zip Code
    - Congressional District

- Selections:
  - Yes
  - No

- Table:
  - Organization Names: Oregon Health & Science University
  - DUNS: 096997515
  - Congressional District: OR-001
  - Address:
    - Oregon Health & Science University 3181 SW Sam Jackson Pl Rd, Portland OR, 97239-0988, United States
  - Action:
    - Edit
    - Delete

- **6.9 Foreign Component**
  - Definition:
    - Foreign component: Scientific activity performed outside of the United States, either by the grantee or a researcher employed by a foreign organization, whether or not grant funds were expended.
  - Examples:
    - Involvement of human subjects or research with live vertebrate animals;
    - Extensive foreign travel by grantee project staff to collect data, or conduct surveys or sampling activities;
    - Any grantee activity that may have an impact on U.S. foreign policy.
  - Examples of other component activities that may be significant:
    - Collaborations with investigators at a foreign site anticipated to result in co-authorship;
    - Use of facilities or instrumentation at a foreign site;
    - Receipt of financial support or resources from a foreign entity.

- Foreign travel for consultation does not meet the definition of foreign component.
  - No foreign component.

Author

C.2 Websites(s) or other Internet site(s)

List the URL for any Internet site(s) that disseminates the results of the research activities. A short description of each site should be provided. It is not necessary to include the publications already specified above.

For awards not designed to create or maintain one or more websites select "Nothing to Report." A description is only required for awards designed to create or maintain one or more websites. Limit the response to this reporting period.

Nothing to Report

or list URL(s) for Internet site(s) and provide description(s) below (NIH recommended length is up to 1 page. Limit is 8000 characters or approximately 3 pages.)

Total remaining allowed limit is 8990 characters.
• If RPPR is submitted with a non-compliant publication
  – Automated email generated
  – Response requested at least two weeks prior to next budget period
  – Can respond via PRAM (Progress Report Additional Materials)
  – NIH will delay processing of an award if publications are not in compliance (for start dates July 1, 2013 or beyond)
